

CLEMENT YUEN KEI MUN

Front End Developer

PERSONAL PROFILE

Clement is a dedicated IT professional with a strong expertise in website design and database management, seamlessly blending technical skills with client-facing interactions. His meticulous approach ensures that every project is executed with precision, meeting client needs while adhering to best practices in the industry. Passionate about his work, Clement is eager to expand his knowledge and take on new challenges, continually seeking opportunities to further his experience and contribute meaningfully to the field.

Experience

1 Sept 2022- Present

Mandrill Tech Sdn Bhd | IT Solutions Company

Team Lead

- Proactively taking on responsibilities, planning frameworks and deadlines for projects, managing company resources effectively, and developing innovative solutions to address challenges.
- Collaborating with clients and working closely with my team to allocate resources, assign tasks, plan project timelines, and ensure successful outcomes.
- Focused on conducting thorough code reviews for the team to identify performance bottlenecks and implemented optimizations for application speed
- Mentored a team of developers, fostering their growth by providing technical advice, and providing clarity on relevant projects
- Guiding best practices, coding standards, and architectural decisions to ensure the delivery of high-quality software solutions.
- Building and maintaining strong client relationships, coordinating cross-functional collaboration, and ensuring alignment with project objectives

REFERENCE

Andy Cahyadi

Senior Backend Developer / Consultant

Phone: +6011 2661 5615

Email : andychd88@gmail.com

Front End Developer

- Proficient in Angular with expertise in building scalable, modular, and high-performance applications. Familiarity with modern Angular
- Experience with Angular Material, PrimeNG, and Tailwind CSS for building responsive and user-friendly UIs and including standalone components, signals, and state management (NgRx or SignalStore)
- Developing and maintaining modular and reusable components applying well-established design patterns
- Integrated RESTful APIs to fetch and display dynamic content, optimizing performance throughout all relevant programming and employing RxJS best practices
- Developed user-friendly web interfaces, ensuring cross-browser compatibility and responsive designs. Practical experience working with TailwindCSS for styling and responsive design
- Utilized RxJS observables to handle asynchronous operations, reduced code complexity and applied RxJS patterns.
- Implemented component-based architecture to create reusable, testable, and maintainable code, reducing development time by 30%
- Collaborated closely with UX/UI designers and backend developers to deliver pixel-perfect interfaces and seamless API integrations.
- Optimized front-end performance through lazy loading, code splitting, and efficient state management
- Actively participated in Agile/Scrum ceremonies, sprint planning, and peer code reviews, fostering a collaborative team environment

Back End Developer

- Developed and maintained scalable RESTful APIs using Spring Boot for internal and external services
- Implemented security features including JWT-based authentication and role-based access control.
- Collaborated with front-end developers and DevOps team to ensure smooth CI/CD pipeline and API contracts.
- Refactored legacy code into modular Spring services, improving code readability and maintainability.
- Decreased deployment errors by 60% by integrating CI/CD pipelines using GitHub Actions and Docker for containerized backend deployment.
- Reduced API response time by 30% by optimizing database queries and using caching techniques with Spring Cache

25 May – 8 Nov 2020

Newsoft It Solution Sdn Bhd | IT Solutions Company

Internship Trainee

- Involved in company projects such as the Company Webpage Project, Circle DNA Malaysia Project
- Managed daily distributed operations such as scrum meetings and had been attentive to the overall progress schedule of projects
- Participated in project testing through web application testing and mobile application testing based off test cases and white box testing
- Curation and management of test cases IT Management of company's web page
- Independent study on Angular, VueJs, and done some of the minor task Involved in programming languages such as Angular, VueJs, PHP, HTML, CSS.

EDUCATIONAL HISTORY

Tunku Abdul Rahman University College

Bachelor in Software System Development | 2018 – 2022

- CGPA: 2.7

Tunku Abdul Rahman University College

Diploma in Information System Engineering | 2015– 2018
